Technical Skills WordPress, React (Basic), PHP, MySQL, HTML, CSS, JavaScript, Web Application Development, AI Chatbot Integration, Image Recognition (Basic), GitHub.

Soft Skills Problem Solving, Communication, Teamwork, Leadership, Time Management, Critical Thinking

Experience

Computer Lab Attendant

Superior University, Mandi Bahauddin | 2025 – Present

Working as a computer lab attendant, responsible for managing computer systems, assisting students during lab sessions, maintaining hardware and software, and supporting faculty during practical classes.

Lecturer:

Superior University, Mandi Bahauddin

- Delivered undergraduate courses in Information and Communication Technology (ICT), covering core concepts of computing, networks, and digital systems.
 - Developed lecture materials, assignments, and assessments to support student learning and practical understanding.
 - Conducted lab sessions and practical activities to enhance students' technical and problem-solving skills.
 - Guided students in academic projects and encouraged the use of modern IT tools and technologies.
-

Web Developer (WordPress)

Progressive IT Tech Software House | 2024 – Present

Worked on WordPress website development, theme customization, and content management. Assisted in managing website projects and improving layout and performance.

Computer Science / ICT Teacher

Misali Model High School | 2019 – 2022

Taught Computer Science and ICT to students from classes 5 to 10, focusing on both theoretical concepts and practical computer skills.

Freelancing & Course Organizer

Superior College, Mandi Bahauddin | 2021 – 2022

Organized and managed freelancing training sessions, coordinated course schedules and instructors, and guided students in digital skills.

Online Clothing Business (Self-Employed)

2 Years Experience

Managed online sales, customer handling, and product promotion. Dealt with customer queries, order processing, and basic marketing activities.

Projects

AGRIBAZZAR – AI ENABLED AGRICULTURE WEB APPLICATION

Developed an AI-enabled web-based agriculture platform for buying and selling crops, vegetables, and agricultural products. The project integrated an AI chatbot to assist farmers, image recognition for crop and product identification, and speech recognition for voice-based interaction. Implemented a complete e-commerce system to handle orders, transactions, and return policy management, enhancing digital farming solutions.

PROGRESSIVE IT TECH – SOFTWARE HOUSE WEBSITE (WORDPRESS)

Designed and developed a professional WordPress-based website for a software house to establish a strong online presence. The project involved creating service pages, company profile, and contact sections with a responsive and user-friendly interface to effectively showcase software services.

ASIF & KAMRAN FERTILITY IVF – MEDICAL WEBSITE

Developed a professional medical website for an IVF and fertility clinic using WordPress. The project focused on designing informative and patient-friendly pages to present fertility treatments and clinical services while ensuring responsive design and accessibility across devices.

Developed a professional medical website for an IVF and fertility clinic using WordPress. The project focused on designing informative and patient-friendly pages to present fertility treatments and clinical services while ensuring responsive design and accessibility across devices.

SUPERIOR COLLEGE PHALIA – EDUCATIONAL WEBSITE

Developed a modern and responsive educational website for Superior College Phalia using WordPress. The project focused on creating an engaging and user-friendly platform to showcase academic programs, admissions, faculty, campus facilities, news, and student services. Ensured responsive design, fast performance, and accessibility across all devices while maintaining a professional and informative user experience.

MISALI MODEL HIGH SCHOOL – AI-ASSISTED WEB APPLICATION

Built and customized a school management website for Misali Model High School using AI-powered development tools such as Cursor. Contributed to implementing features including student admissions, faculty profiles, announcements, and contact management by leveraging AI-generated code, making project-specific modifications, testing functionality, and ensuring a responsive and user-friendly interface.

ACADEMIC & PROFESSIONAL ACTIVITIES

Research Conference Participation | May 2025

Attended a research conference at Superior University, Mandi Bahauddin. Gained exposure to emerging technology trends, research methodologies, and academic networking.
